DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

The species are identified as the species of figures:

- I. Figs. 1, 3A, and 3B, with one of the following: (Four Species):
 - a. Fig. 13
 - b. Fig. 16
 - c. Fig. 18
 - d. Fig. 22
- II. Figs. 2, 5A and 5B, with one of the following (Four Species):
 - a. Fig. 13
 - b. Fig. 16
 - c. Fig. 18
 - d. Fig. 22
- III. Figs. 25, 26, 27, 27, 29, 30, 31, 32, 33 and 34 (One Species)
- IV. Fig. 35 (One Species)
- V. Figs. 36 and 37 (One Species)

Art Unit: 2655

A telephone call was made to Mark J. Thronson on 12/12/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, this application contains claims to a plurality of species with no generic claims.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
